DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

* The primary reasons for allowance for claims 1-10 are the inclusion of a method for creating a printing master and an apparatus for making a printing master comprising the step of selectively creating ink-carrying and non ink-carrying areas of a printing master precursor by means of an ink jet printing system printing dots on the printing master precursor wherein the position of the dots is controlled with an increment that is less than the size of the smallest dot, and characterized in that the position of the dots is controlled by a sub-dot phase modulation error diffusion algorithm. It is these limitations, either alone or combined as claimed, that have not been taught, found, or suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
